

EUROSTYLE since 1988 with Barreiros

What does it mean if a customer stays with you for a long time?

Having a first mold done for this customer back in the 80's (1988) where the word "fast" meant Telex and fax exchange, board models work, and if there was a cnc, 1000 mm/min Feed was a luxury, but as in life, a relation in permanent positive evolution must be achieved. In this case delivering solutions that meet new challenges. As Tool Managers, Barreiros searches best in class suppliers with specific know how according projects dimension and complexity, from planning to in site mold support.

Trust is definitely a turnkey to develop business in nowadays complex scenarios, and we treasure that value throughout our customers range.

"With Barreiros, some customer could lighten their structure and entrust their follow-up /tracking expenditures to Barreiros. We have quick answers from Barreiros and exemplary availability. We feel at home with Barreiros honesty: a rigor and a serious follow-up, according to company's image. BARREIROS is a company that strive above all to have partners with the best quality with a competitive price ready to the market." - M. Gérard B. - Responsable Bureaux d'Études (up to 2016) EUROSTYLE Systems France

Hence, this two way commitment, allows us to be market competitive without compromising full technical add value, with particular emphasize for multiple mould projects, specially for interior automotive cockpit parts/

components. As our customers use to tell us, we like to leave our projects, knowing that they are in "good hands"!
